# FEDERAL PERSONNEL IN THE EXECUTIVE BRANCH, MARCH-APRIL 1952, AND PAY, FEBRUARY-MARCH 1952

NOTE WITH REFERENCE TO PERSONAL SERVICE EXPENDITURE FIGURES

It should be noted that the latest expenditure figures for personal service shown in table I of this report are for the month of March 1952 and that they are compared with personal service expenditure figures for the month of February 1952, whereas the latest employment figures covered in this report are for the month of April 1952 and are compared with the month of March 1952. This lag in personal service expenditures figures is necessary in order that actual expenditures may be reported.

*(Figures in the following report are compiled from signed official personnel reports by the various agencies and departments of the Federal Government. Table I shows total personnel employed inside and outside continental United States, and pay, by agency. Table II shows personnel employed inside continental United States. Table III shows personnel employed outside continental United States. Table IV gives by agency the industrial workers employed by the Federal Government. For purposes of comparison, figures for the previous month are shown in adjoining columns.)*
